Common commands/issues

Upgrade major version

- Make sure you are on the latest version within the current major version:

  - ```
    snap refresh rocketchat-server
    ```

- Then switch to the next major "track"

  - ```
    snap refresh rocketchat-server --channel=4.x/stable
    ```

Common issues

- When upgrading from version 3 to version 4, the application might not load, Firefox displaying an error message with an error code: "SSL_ERROR_INTERNAL_ERROR_ALERT"
  - To fix that I had to set the site url:

  - ```
    snap set rocketchat-server siteurl=https://chat.domain.com
    ```

- then restart rocketchat
